December 20th, 2016

Dear Program Lead,

Rapid City Transportation is a leading provider of non-emergency transportation across the Province of Ontario. Reducing risk and increasing passenger flexibility helps to improve medical access for individuals who require transportation.

Understanding that many individuals that require the services of a food bank to relieve hunger can also be in need of non-emergency medical transportation we ask for your consideration. Reaching out to your team is a great first step in getting people the leading option for the assistance they require through a grass roots effort. We would like to make you aware that we can assist Veterans or ODSP Recipients for non-emergency medical travel and can also help with inquiries about travel options should they arise for these groups. Rapid City is pleased with how our service has made medical and treatment options more accessible over the past year to individuals in need.

I have provided a small supply of brochures for your clients in need and ask that you post one on your local message board.

Summary of Rapid City Transportation:

Rapid City Transportation provides concierge style transportation for people who, due to physical and/or health reasons need special attention before, during and after the trip. We performed over 300,000 non-emergency medical related trips for our clients this year, and know that the quality and safety of our transportation can significantly affect the well-being of the client. We take pride in our ability to assist individuals who are physically or cognitively challenged.

With our flexible service model it is possible for us to assist all regions within Ontario with a variety of vehicle types. Our service simplifies and streamlines the transportation process for our clients by providing a single high quality vendor without geographic or vehicle type limitations. We build partnerships with many different organizations including ODSP, WSIB, Veterans, Children's Aid, Brain Injury Associations and Insurance companies. Our ISO 9001:2008 certified processes offer savings, service flexibility, streamlined reporting and case requirement tracking. Rapid City has been operating

since 1994 demonstrating our long term commitment to the non-emergency medical transportation field.

There are three easy ways to send us your trip instructions, request information about a possible trip or receive a Quote:

- Fax: 905-831-1115
- Email: info@rapidcitytransport.com
- Phone: 1-888-202-3923

We look forward to servicing and assisting you in the future. If there are any special requests or needs for transportation please let us know so we can help expedite your request.

Regards,

Reuben
